

Step-by-step plan: Create Studielink Account with DigiD

(Only for students with a Dutch home address)

WARNING: Do you have an existing account?

If you already have an account on Studielink to which you log in with your email address and password, please do not log in with DigiD yet. This will create a duplicate account.

To start using your DigiD, log in to your account without your DigiD first. In your personal dashboard go to 'Details' and change your home address to your Dutch address. Studielink will match your account with the data from the municipal personal records database. Within a few days you will receive a message in Studielink that states you can now log in with DigiD.

➔ **Step 1:** Go to www.studielink.nl, choose your preferred language in the upper right corner (Dutch, English or German) and click **<Log in with DigiD>**.

→ **Step 2:** Log in with your DigiD by using the DigiD app, SMS verification or by using your identity card. The first time you log into Studielink you will have to verify your email address to create an account.

Please note: it is determined by the institution of higher education per programme whether or not you have a choice at 'Starts as'.

In some cases it is possible you don't have a choice at 'Starting date' and/or 'Enrolment format'. This means that the programme of your choice can only be followed with the already entered characteristics. This is determined by the institution of higher education.

You can enter a maximum of 4 enrolment applications per academic year, of which only one or two with a selection procedure. Find out more about programmes with selection/numerus fixus on www.studyinholland.nl.

In some cases you are asked if you wish to participate in the Study Choice Activity. For more information about the Study Choice Activity, please contact your (future) university (of applied sciences).

→ **Step 9:** Some institutions will ask you some programme-specific questions. For more information about these questions you have to contact the institution.
